

Release Notes

February 17, 2026

- Upgraded customer-facing UI for stronger first impression in [index.html](#).
- Added premium typography (Sora + Fraunces) for better visual identity.
- Added hero-style sidebar card with branded tagline and quick business metrics.
- Made sidebar sticky + scrollable for cleaner long-session usability.
- Added welcome guidance banner in chat (“5 guided steps” message) to improve onboarding.
- Added subtle chat bubble entry animation for smoother interaction feel.
- Cleaned chat metadata display format (Masala Agent - time) for consistency.
- Kept full chatbot logic and existing flow behavior unchanged.
